The case of a 38-year-old woman with progressive aphasia and impairment in her ability to write is reported. Neuropsychological examination showed impairment in phonology, semantic memory and visuo-spatial skills. Magnetic resonance imaging demonstrated a pattern of bilateral and symmetrical atrophy of both cerebral hemispheres. The findings were consistent with a diagnosis of generalized cortical atrophy. This case illustrates the necessity of investigating aphasic patients with complementary neuropsychological and neuroradiological examinations. Vapor phase deposition processes of AgNPs from aqueous media as novel smart interactive platforms for chemical/biological sensors. In the present article, we synthesized silver nanoparticles (AgNPs) via a vapor phase process using a house plant as the bio-structure. The synthesized AgNPs were characterized by UV-Vis spectrophotometer, TEM, XRD, Raman and FTIR spectroscopies. Moreover, the formation of biomolecules such as biomolecules bound AgNPs and albumin was studied by FTIR spectroscopy. By functionalizing the synthesized AgNPs with biomolecules and other bio-active compounds, these smart interactive platforms are exploited to fabricate chemical and biological sensors. The fabricated sensor was used for detection of biological macromolecules at nanometric scales. The results show a significant decrease in the intensity of absorbance of the synthesized AgNPs at 520 nm after addition of lysozyme. I just got done playing, and it's not...

Please, please, don't. This game was abysmal. It stank like an old man and his fart.

The Basics - *Vanguard in the Dungeons of Doom*: The game is a Fantasy RPG where your character is a member of a noble house. But they're not cocky like nobility in most video games. If you've never played this, I will explain what the class system entails. Do this and this, and you can hit things and automatically carry on. This can be done with a sword or with a pick. You can also do loadouts. Loadout: I will say for this game, you can't. At all. You can equip weapons and armor, but loadouts is for the Knights of the Old Republic of WoW. Yes, that's right.
