The engine has been extensively improved and is now capable of handling over 25,000 player animations in real-time. The engine is also equipped with many new features including an organic ball physics system that is modelled after the ball's physical properties and unique player intelligence (i.e. the ability of the engine to recognise players and club characteristics) and it is now able to reproduce a diverse range of playing conditions - from pristine stadiums to street pitches - and match settings. AI The FIFA 2K Engine features the largest and most

sophisticated all-encompassing artificial intelligence system of any sports game. Every player's situational awareness and decision-making during the course of a match is fully replicated to produce the best game possible. Ball Physics The FIFA 2K Engine is capable of reproducing all the physical characteristics of the ball, including the aerodynamic shape, weight and movement, and it also delivers an authentic and dynamic hit sensation to players. The engine includes a total of 4.5 million polygons (triangles) which simulate the ball's unique aerodynamic characteristics. Each cone represents a single drop, which builds upon itself. As a result, the ball naturally deforms, making it appear as if it is held in the players' hands. The unique physics of the ball are also maintained through the player's contact with the ball. The FIFA 2K Engine is able to replicate all the physical characteristics of a football, including the aerodynamic shape, weight and movement, while also delivering an authentic and dynamic hit sensation to players.

EA SPORTS FIFA 22 includes all-new intelligence in gameplay to match soccer's beautiful fluidity, authenticity and unpredictability. Connected live data ensures that every moment of the action is always fair, replicating the speed, intensity, physicality and emotion of a match. "An incredible passion for soccer, a deep understanding of the game and the unique ability to see the game through the eyes of the players brings a new level of authenticity to FIFA." It was only a few weeks ago that FIFA 19 dominated the first half of the year in terms of sales, but the English footballing juggernaut is back. Still tops on the charts, FIFA 22 has taken the crown from EA SPORTS 17, and with this new title comes a whole new set of themes and overall feel. It was only a few weeks ago that FIFA 19 dominated the first half of the year in terms of sales, but the English footballing juggernaut is back. Still tops on the charts, FIFA 22 has taken the crown from EA SPORTS 17, and with this new title comes a whole new set of themes and overall feel. FIFA has always been known as an early adopter of football's potential to be more than just a game. Whether it was the animations that were integrated as soon as the game came out in years past, or the fact that FIFA just always had some of the most successful clubs in football, people of all skill levels wanted to play football, and FIFA knew it. Indeed, the same year that FIFA 12 came out (that's 1996 for those of you who aren't attuned to the year of the footballing elite), EA Sports made a game for the Nintendo 64, Super Street Fighter II Turbo, and, of course, Wii Sports. By 2010, they were bringing out FIFA Soccer, for PS3, 360, and Wii (the latter of which was simply an official Nintendo title), and for the first time in history, they were actually bringing a game that could be played on pretty much any system out there and still be realistic. Sure, FIFA looked like a game of football, but it was, at its core, a more real football game than they'd ever had before. And that seemed to be how it has stayed through the years: always looking for ways to achieve closer contact with the sport, but never feeling that it couldn't be more football or not. In fact, that same year that FIFA 12 came
