I tried the two methods listed for unlocking the license key, but neither worked.. please help! A: Did you use any of the methods listed above? Some of these methods only unlock the license key on a specific computer, when it tries to install it uses the license key you have on the computer it tries to install it on. So in this case you need to check the license key of the other computer you want to use this license key on. If you have used any of the methods listed above you can't use this license key again, if this is the case you need to reinstall the program. If the method mentioned above don't work you can try downloading the latest update, unzip the update and then try installing it. After this is installed you can use the license key you have on the computer it tried to install the key on. Community News Ongoing Development Schedule What is the priority for development? 1. "He is deeply concerned about the growing military presence of the communists in Panama. He wants very much to see this confrontation with the communists stopped," Kushner wrote in a February 1985 memo to Carter "We should find a way to do this secretly and help him." The piece of advice to the diplomat came months after Reagan made the decision to deliver four F-16 fighter jets to Panama as part of a deal that saw the U.S. cut a \$36.5 million deal to sell Panama missiles despite Reagan's own concerns about the potential use of the arms against the U.S. Read more The Emergency Election 0cc13bf012
